

ALIVENESS AS RADICAL INNOVATION

A Weaving of Tribes

July 1-5, 2024

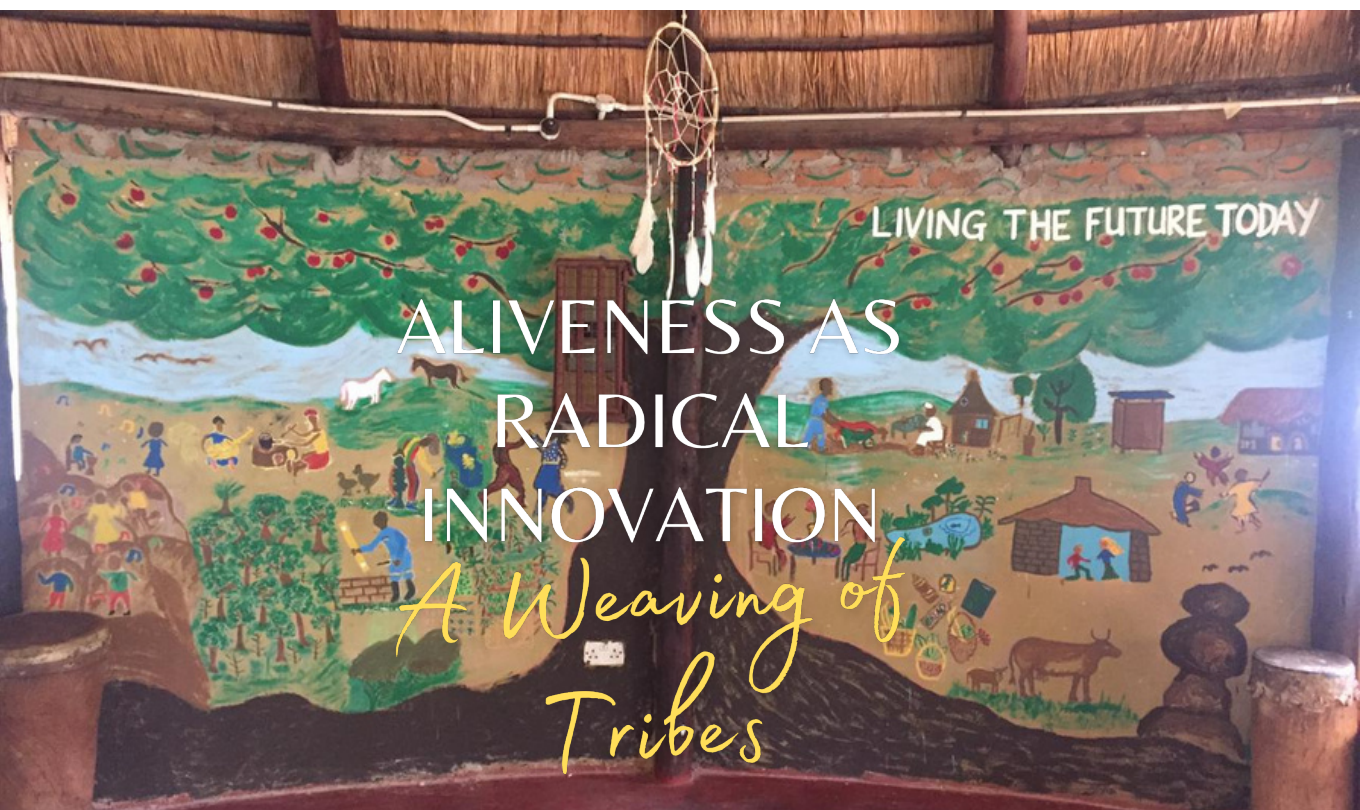

Tresques, France

Join us for an intergenerational Learning Village where together we will explore and do what brings us alive. We will work out of the principle of co-creative self-organising - where together we craft our days: When we each bring what we love and care about, deep delight and communion becomes possible.

There will be space for the youngest to the eldest to find their voice and bring their unique expression and offering. We imagine time in nature, working the land, making art, engaging in dialogue, dancing, singing, and so much more arising out of our collective learning village field. It is a place where together we can play, pray, celebrate, wonder, question, create, remember, grieve, BE.

Join Us!

Maianne, Mudi, Phil, Veerle, and Xenia
